10 Reasons Why Nature’s Sunshine is Better

1. **750,000 trained herbalists** are at your disposal. Our herbalist group is the world’s largest and represents a vast network for your benefit — both in terms of health and business success.

2. **More than 35 debt-free years** of strong business success — in 40 countries. After determining that a simple home remedy could help alleviate a nagging stomach condition, a Utah school teacher named Gene Hughes set out to share his newfound zeal and knowledge of natural solutions for health problems. Three decades later, NSP is the industry’s leader.

3. **300 validated analytical tests** that guarantee the safest, purest, highest-potency products available. Our decades-long tradition of premium-grade nutritional products can help revitalize your health.

4. **NSP is the pioneer** and the largest encapsulator of herbal products.

5. **Stringent quality control** results in the rejection of more than 140,000 lbs. of raw materials annually. NSP has been recognized repeatedly for its top-tier products and closely monitors each phase of production and testing.

6. **Over 600 products**, including 300 proprietary formulas — all with money-back guarantees. A comprehensive product family provides options for all areas of health.

7. **State-of-the-art, in-house manufacturing** guarantees every facet of product development. Our product development and quality are unsurpassed in the industry, due in part to incorporating cutting-edge technology.

8. **Generous rebates** on personal purchases for consistent NSP customers.

9. **The most comprehensive integrated compensation opportunities** anywhere. Retailing, consulting and networking are all rewarded with exotic travel, specialized education and unlimited income potential.

10. **Four U.S. distribution centers** ensure that your product arrives quickly, safely and inexpensively.
## Top 10 Products

1. **THAI-GO DRINK** (2/25 fl. oz.)
   A blend of the most healthful fruits and nutritional supplements from all over the world. Replete with xanthones, bioflavonoids and powerful antioxidants.
